**About me**

I am a Full Stack developer and Cloud Engineer trainee, passionate about solving complex problems and delivering efficient solutions that optimise processes and enhance user experience. I stand out for my discipline, attention to detail, and effective teamwork, always applying best practices and modern technologies.

My goal is to grow professionally by contributing real value to every project and collaborating in innovative and dynamic teams where continuous learning and improvement are part of the daily routine.

---

**Experience**

**Cloud Engineer trainee**

*ReadyMind*

May 2025 – Present

- Participate in an intensive program focused on cloud engineering, data engineering, and low-code development using Microsoft Azure, applying knowledge to practical projects.
- Design and manage scalable cloud infrastructures leveraging Azure services.
- Prepare for AZ-900 and AZ-104 certifications to strengthen technical skills.
- Collaborate actively in agile teams, promoting communication and continuous improvement.

---

**Education**

**Higher Technician in Software Development**

*Instituto de Formación Técnica Superior N°11*

August 2023 – Present (3rd year, 1st semester)

- Completed 18 out of 23 courses; 5 remaining to graduate.

---

**Projects**

**Inventory Management System (Spring Boot, PostgreSQL, Docker)**

- Develop a multi-layered system to manage products, clients, and sales.
